

TOWN OF CUTLER ROAD TOUR EVALUATION MEETING
SATURDAY, May 23, 2026
CUTLER TOWN ROADS; Camp Douglas, WI

Town Board Members in attendance: Martin Potter (Chairman), Bobbie Georgeson (Clerk), James Hayward (Supervisor, Curt Jorgensen (Supervisor), and Terry Hayward (Treasurer). Also in attendance were Bobby Shaw, and Steve Bezemek (Regional Mgr. Scott Construction).

Martin called the meeting to order at 8:00 a.m.

Bobby brought a list of concerned areas of roads to review at this time.

Findings:

- 28th St from double seal to Cty Road M was measured for TRIP funding. Starting at Cty Rd M going west on 28th for approximately 3850', where last year pulverizing was completed.
- 26th St between corner and Gary Frei residences a short patch needed where new culvert was installed, due to flood damage. Bobby Shaw will patch then double seal will be applied over the top.
- 2nd Ave from 25th St North from 400' to 800' sealing, and further (over bridge) North 2650' was measured for sealing. Emulsion seal is preferred due to weight of road traffic using bridge.

Steve with Scott Construction will mail quotes on the necessary sections, to give town idea of what is needed.

Meeting Adjourned at 8:50 a.m.
Bobbie K Georgeson, Clerk
